Hello, everyone! I'm Megumi. I come (⑦) Fukushima. I'm going to tell you about a famous person from my city.

Now, let me ask you a question. Do you know Koseki Yuji? He is known as a composer. Perhaps, some of you may not know him. But his works are known (①) many people. For example, the marching music of the Tokyo Olympics, "Olympic March", was used in the Tokyo Olympics in 1964 and 2021. And "Glory Shines For You" is the song of the National High School Baseball Championship. He composed about five thousand pieces of music in his life. That's amazing.

A lot of people, including young people, in Fukushima, are familiar (②) him. ① Because the monument of Koseki Yuji was built in front of the Fukushima station in 2009. From that monument, we can hear a melody. So, many people can't help but come (③) it. And it is liked by many tourists, too.

By the way, there are some flower beds around the monument. ② My grandmother's group members take care of them and clean up around them as volunteers. I took part (④) their activity last year. I think that it is important to keep (⑤) cleaning around them. ③ [of / many / the / feel / people / because / environment / good / beautiful / ,] .

If you have the chance to visit Fukushima, please enjoy the monument!
